'G' words

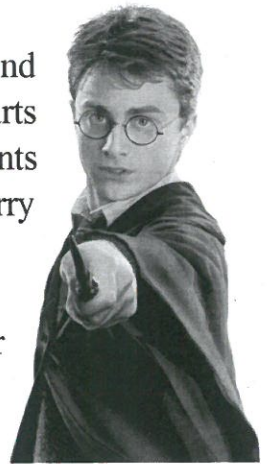

Read the information about Harry Potter and highlight the words you find with 'g' in them. Write them below and circle whether they are soft 'g' or hard 'g' words.

Harry Potter

Harry Potter is the story of a boy who grows up with his nasty aunt and uncle. At the age of 11, he discovers he is a wizard and goes to Hogwarts School, a magic school. While he is there, Harry discovers his parents were killed by an evil wizard, Voldemort, who now wants to kill Harry too.

Harry has many adventures at the school. Together with his ginger friend Ron and genius friend Hermione, he meets giants, dragons, a gigantic snake and some grumpy teachers. Harry is always in great danger from Voldemort but his generosity and bravery help him save the day.
